

# AZURE CPI Connection Options

## ER-GATEWAY

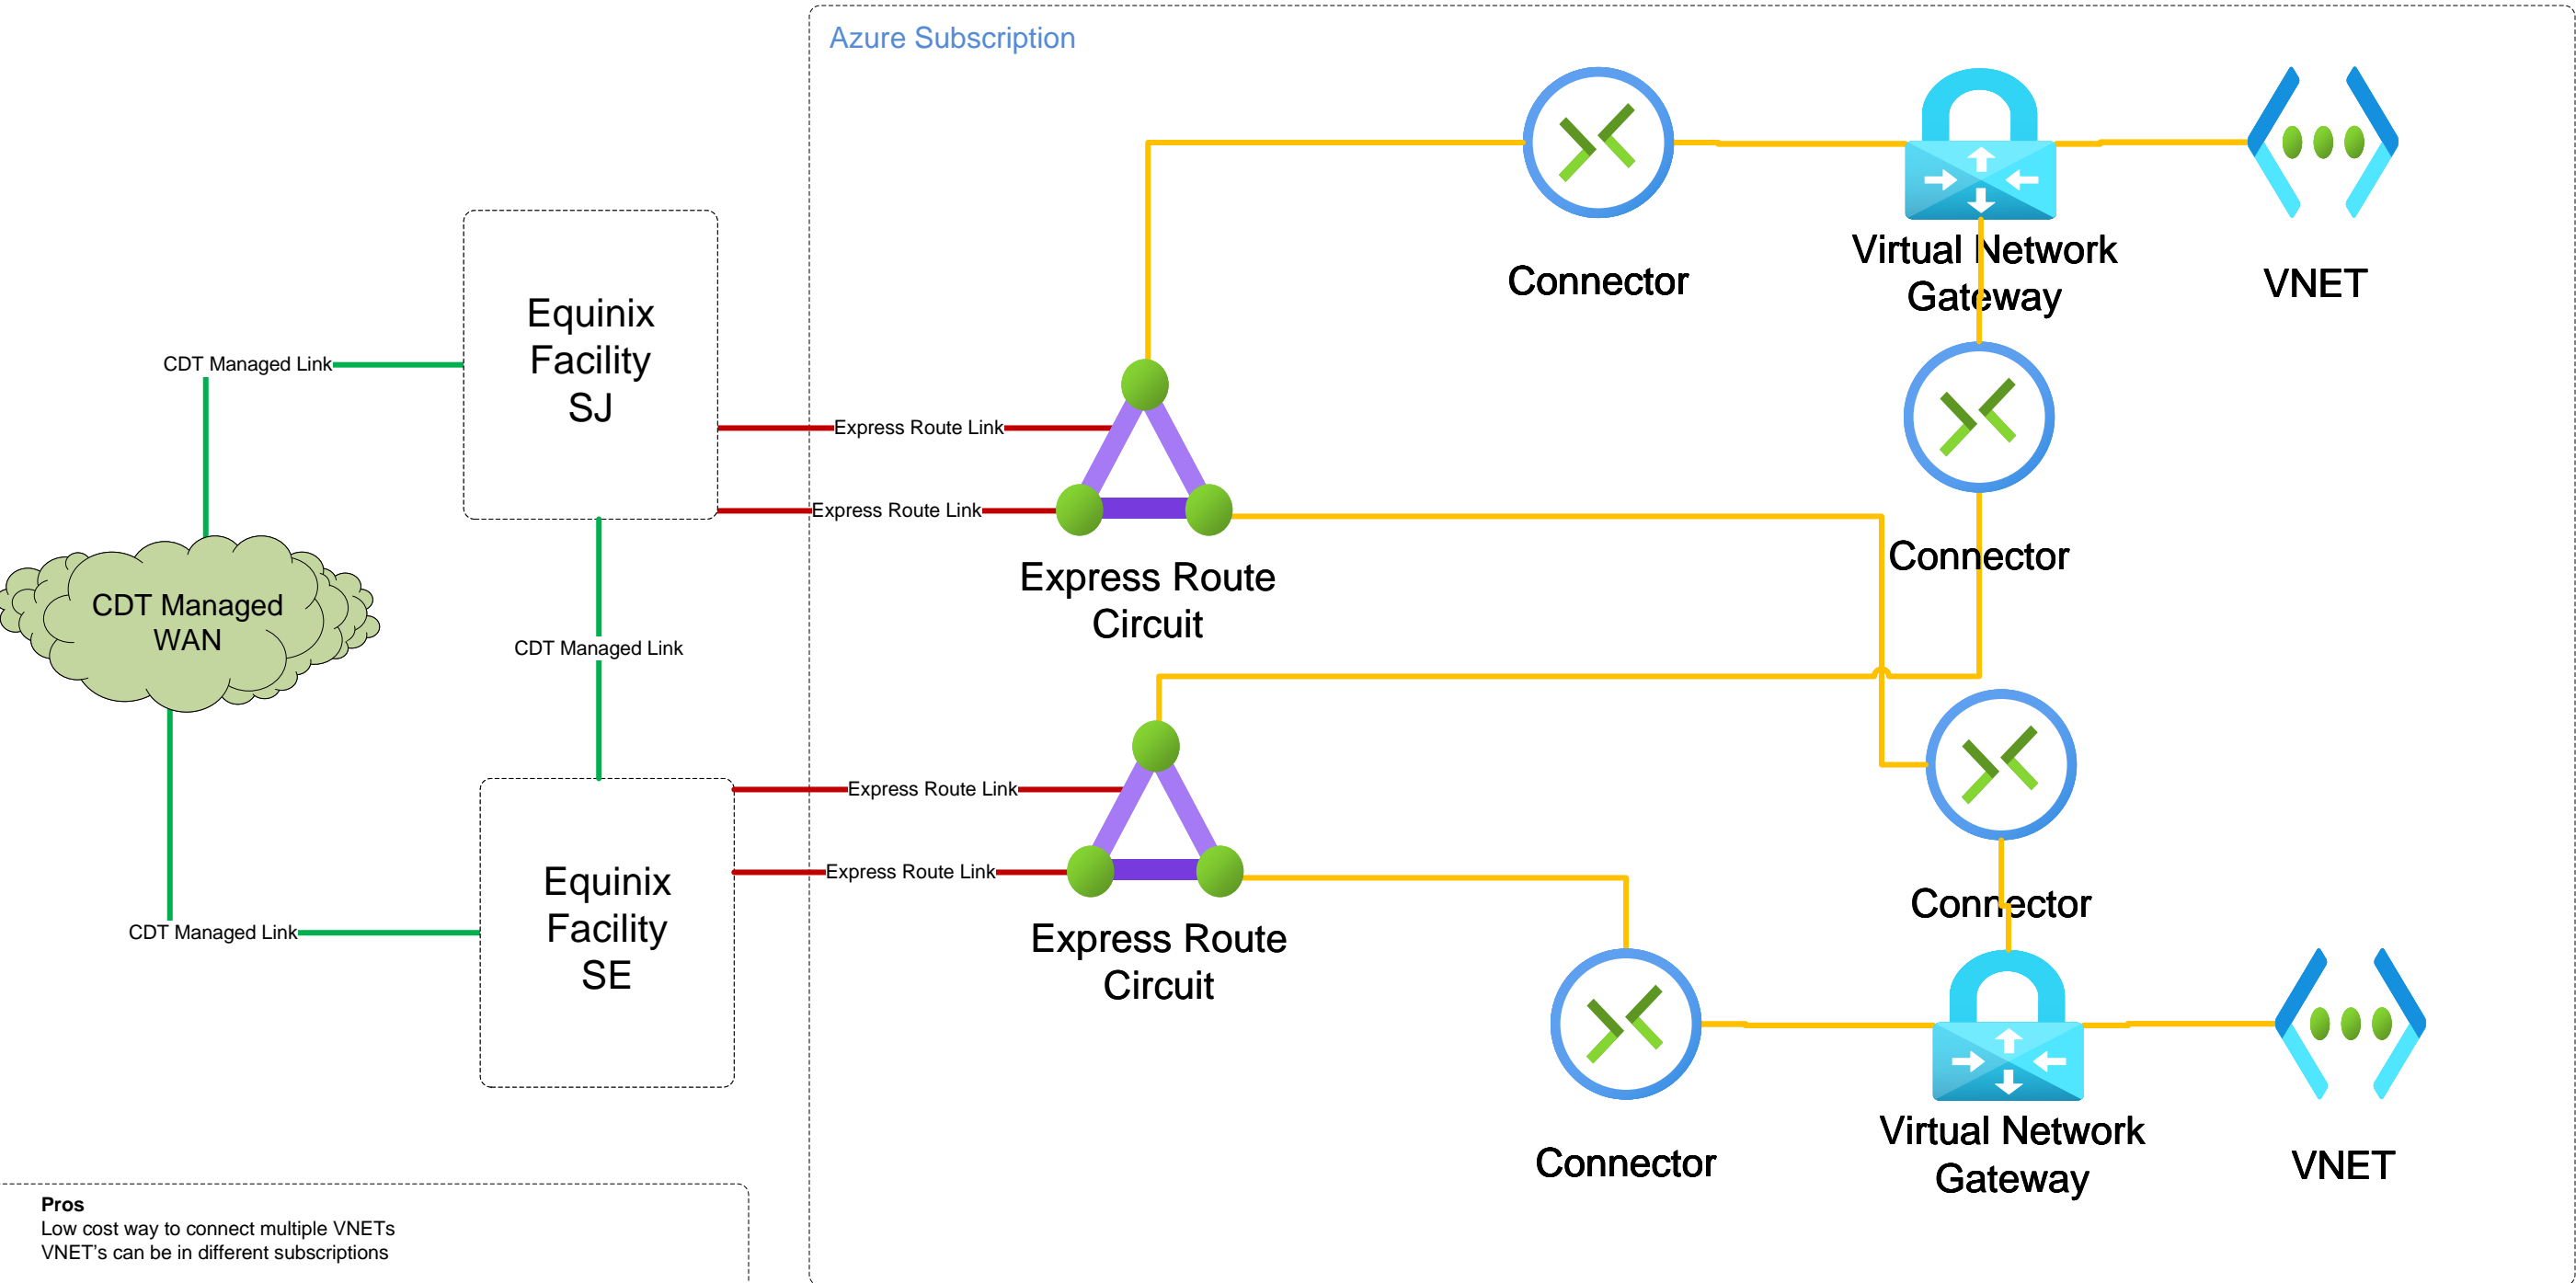

**Pros**  
Low cost way to connect multiple VNETs  
VNET's can be in different regions  
VNET's can be in different subscriptions

**Cons**  
VNETS's have to route on prem or have VNET peering to route to each other  
Maximum number of VNETS ranges from 10 to 100 depending on circuit size  
VNETs can not be put in different VRF's on prem

# AZURE CPI Connection Options

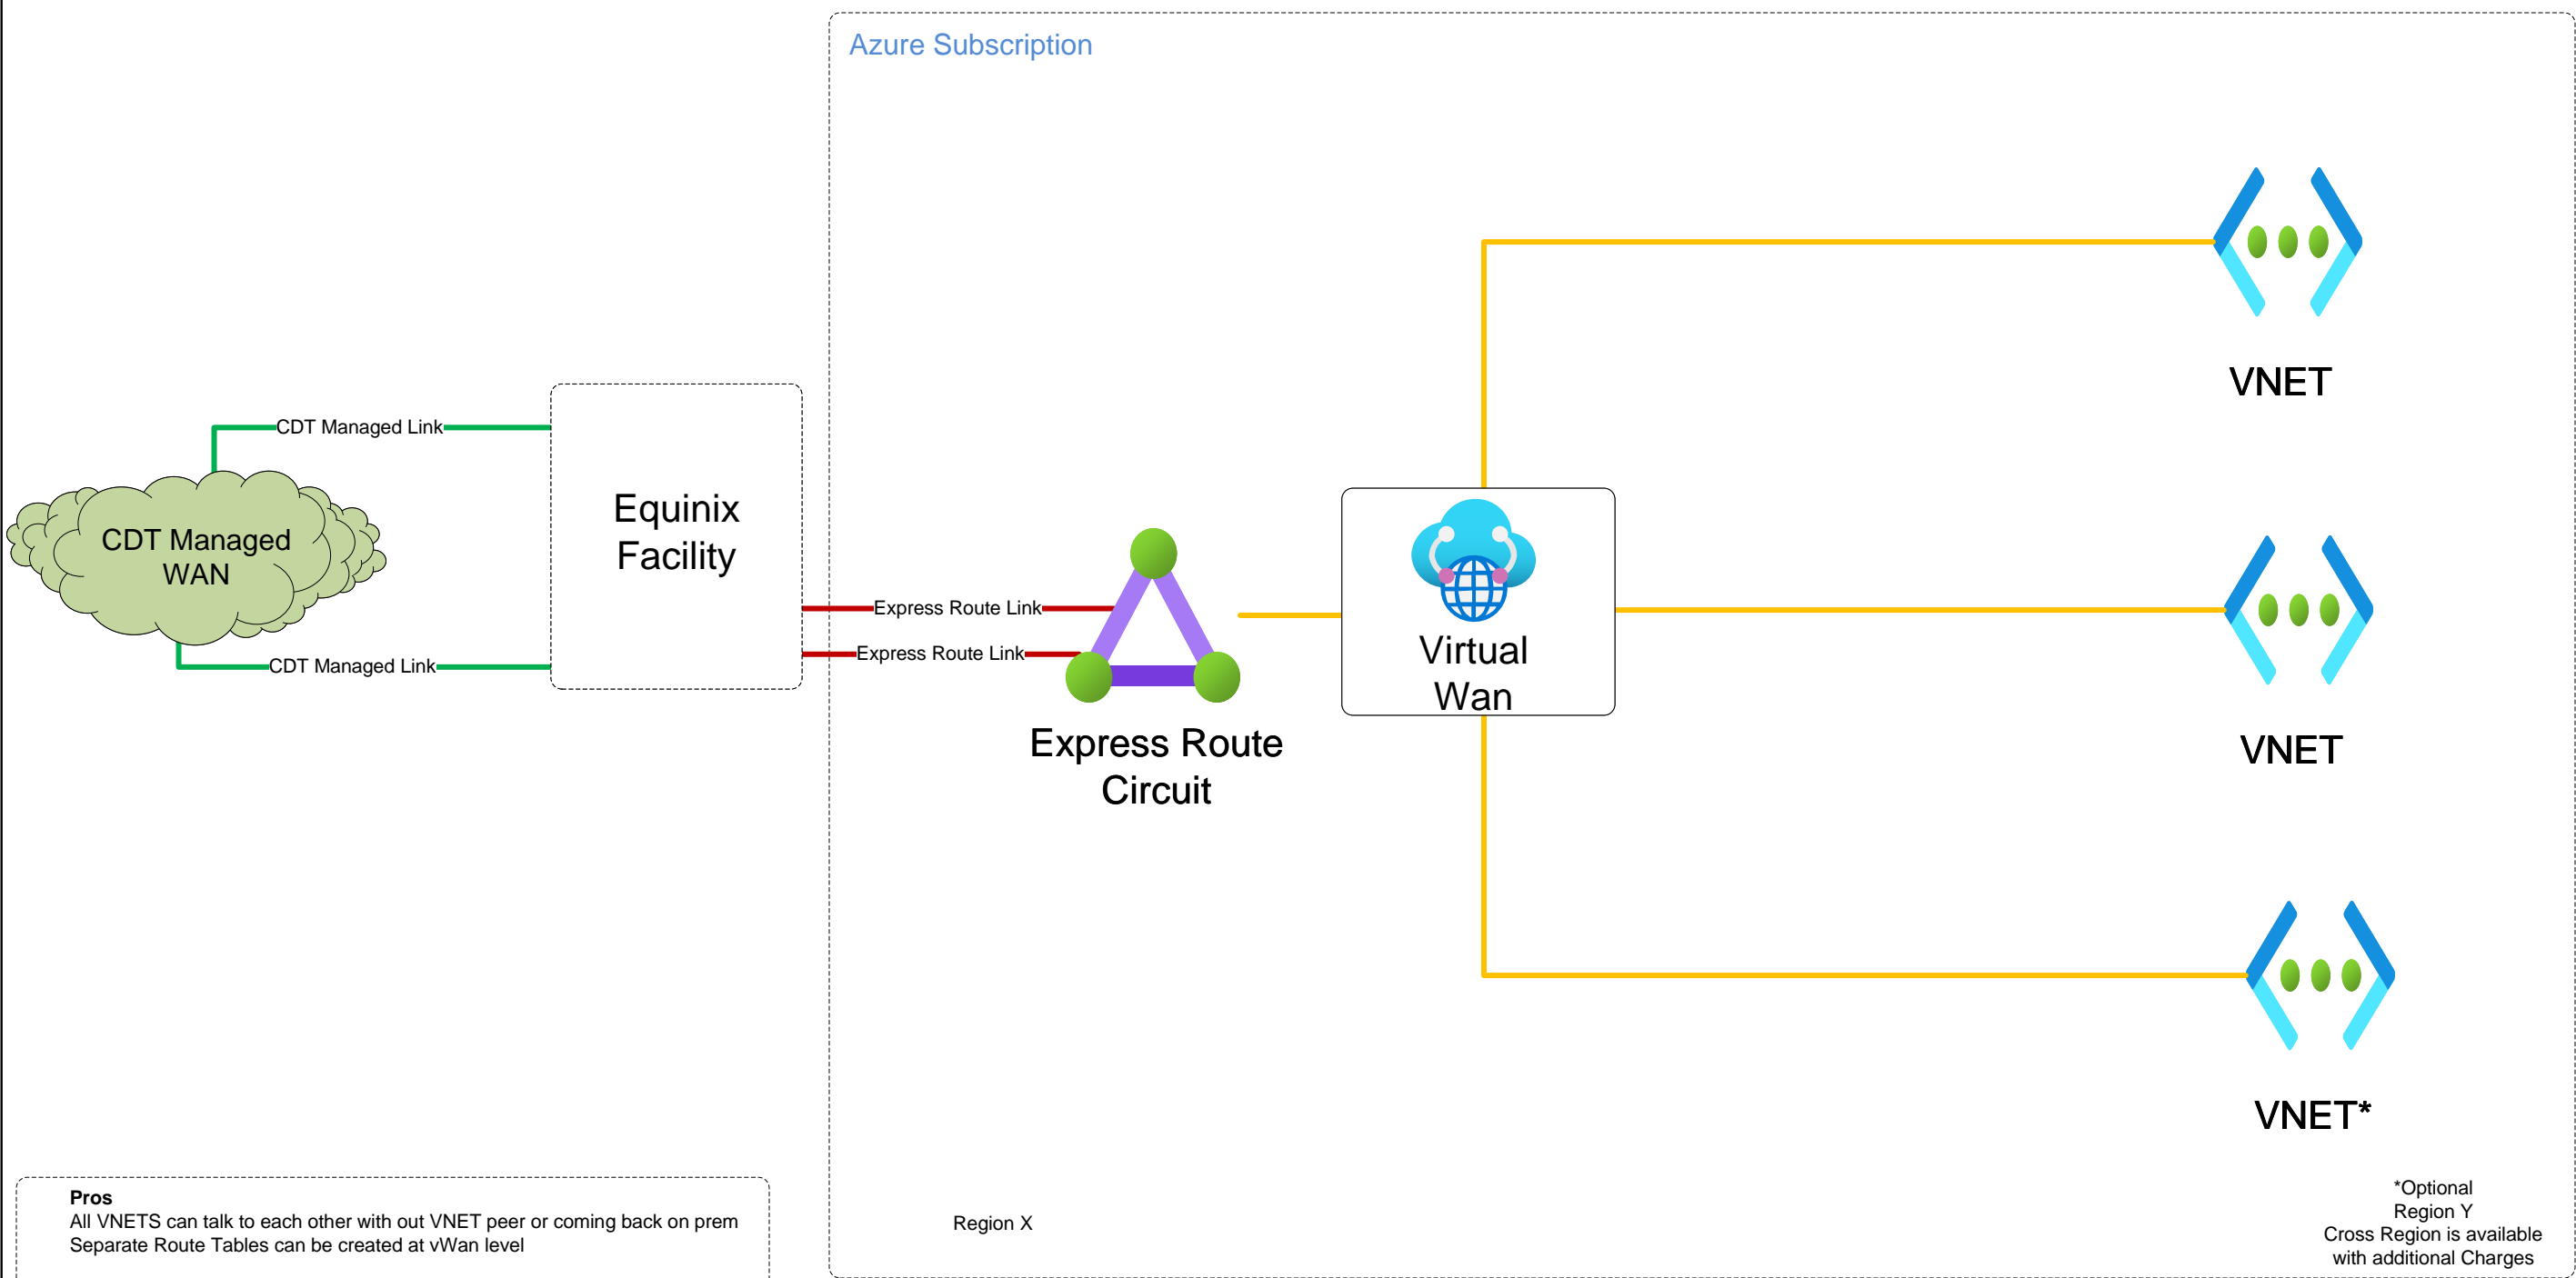

## ER-GATEWAY-Region

**Pros**  
Low cost way to connect multiple VNETs  
VNET's can be in different subscriptions

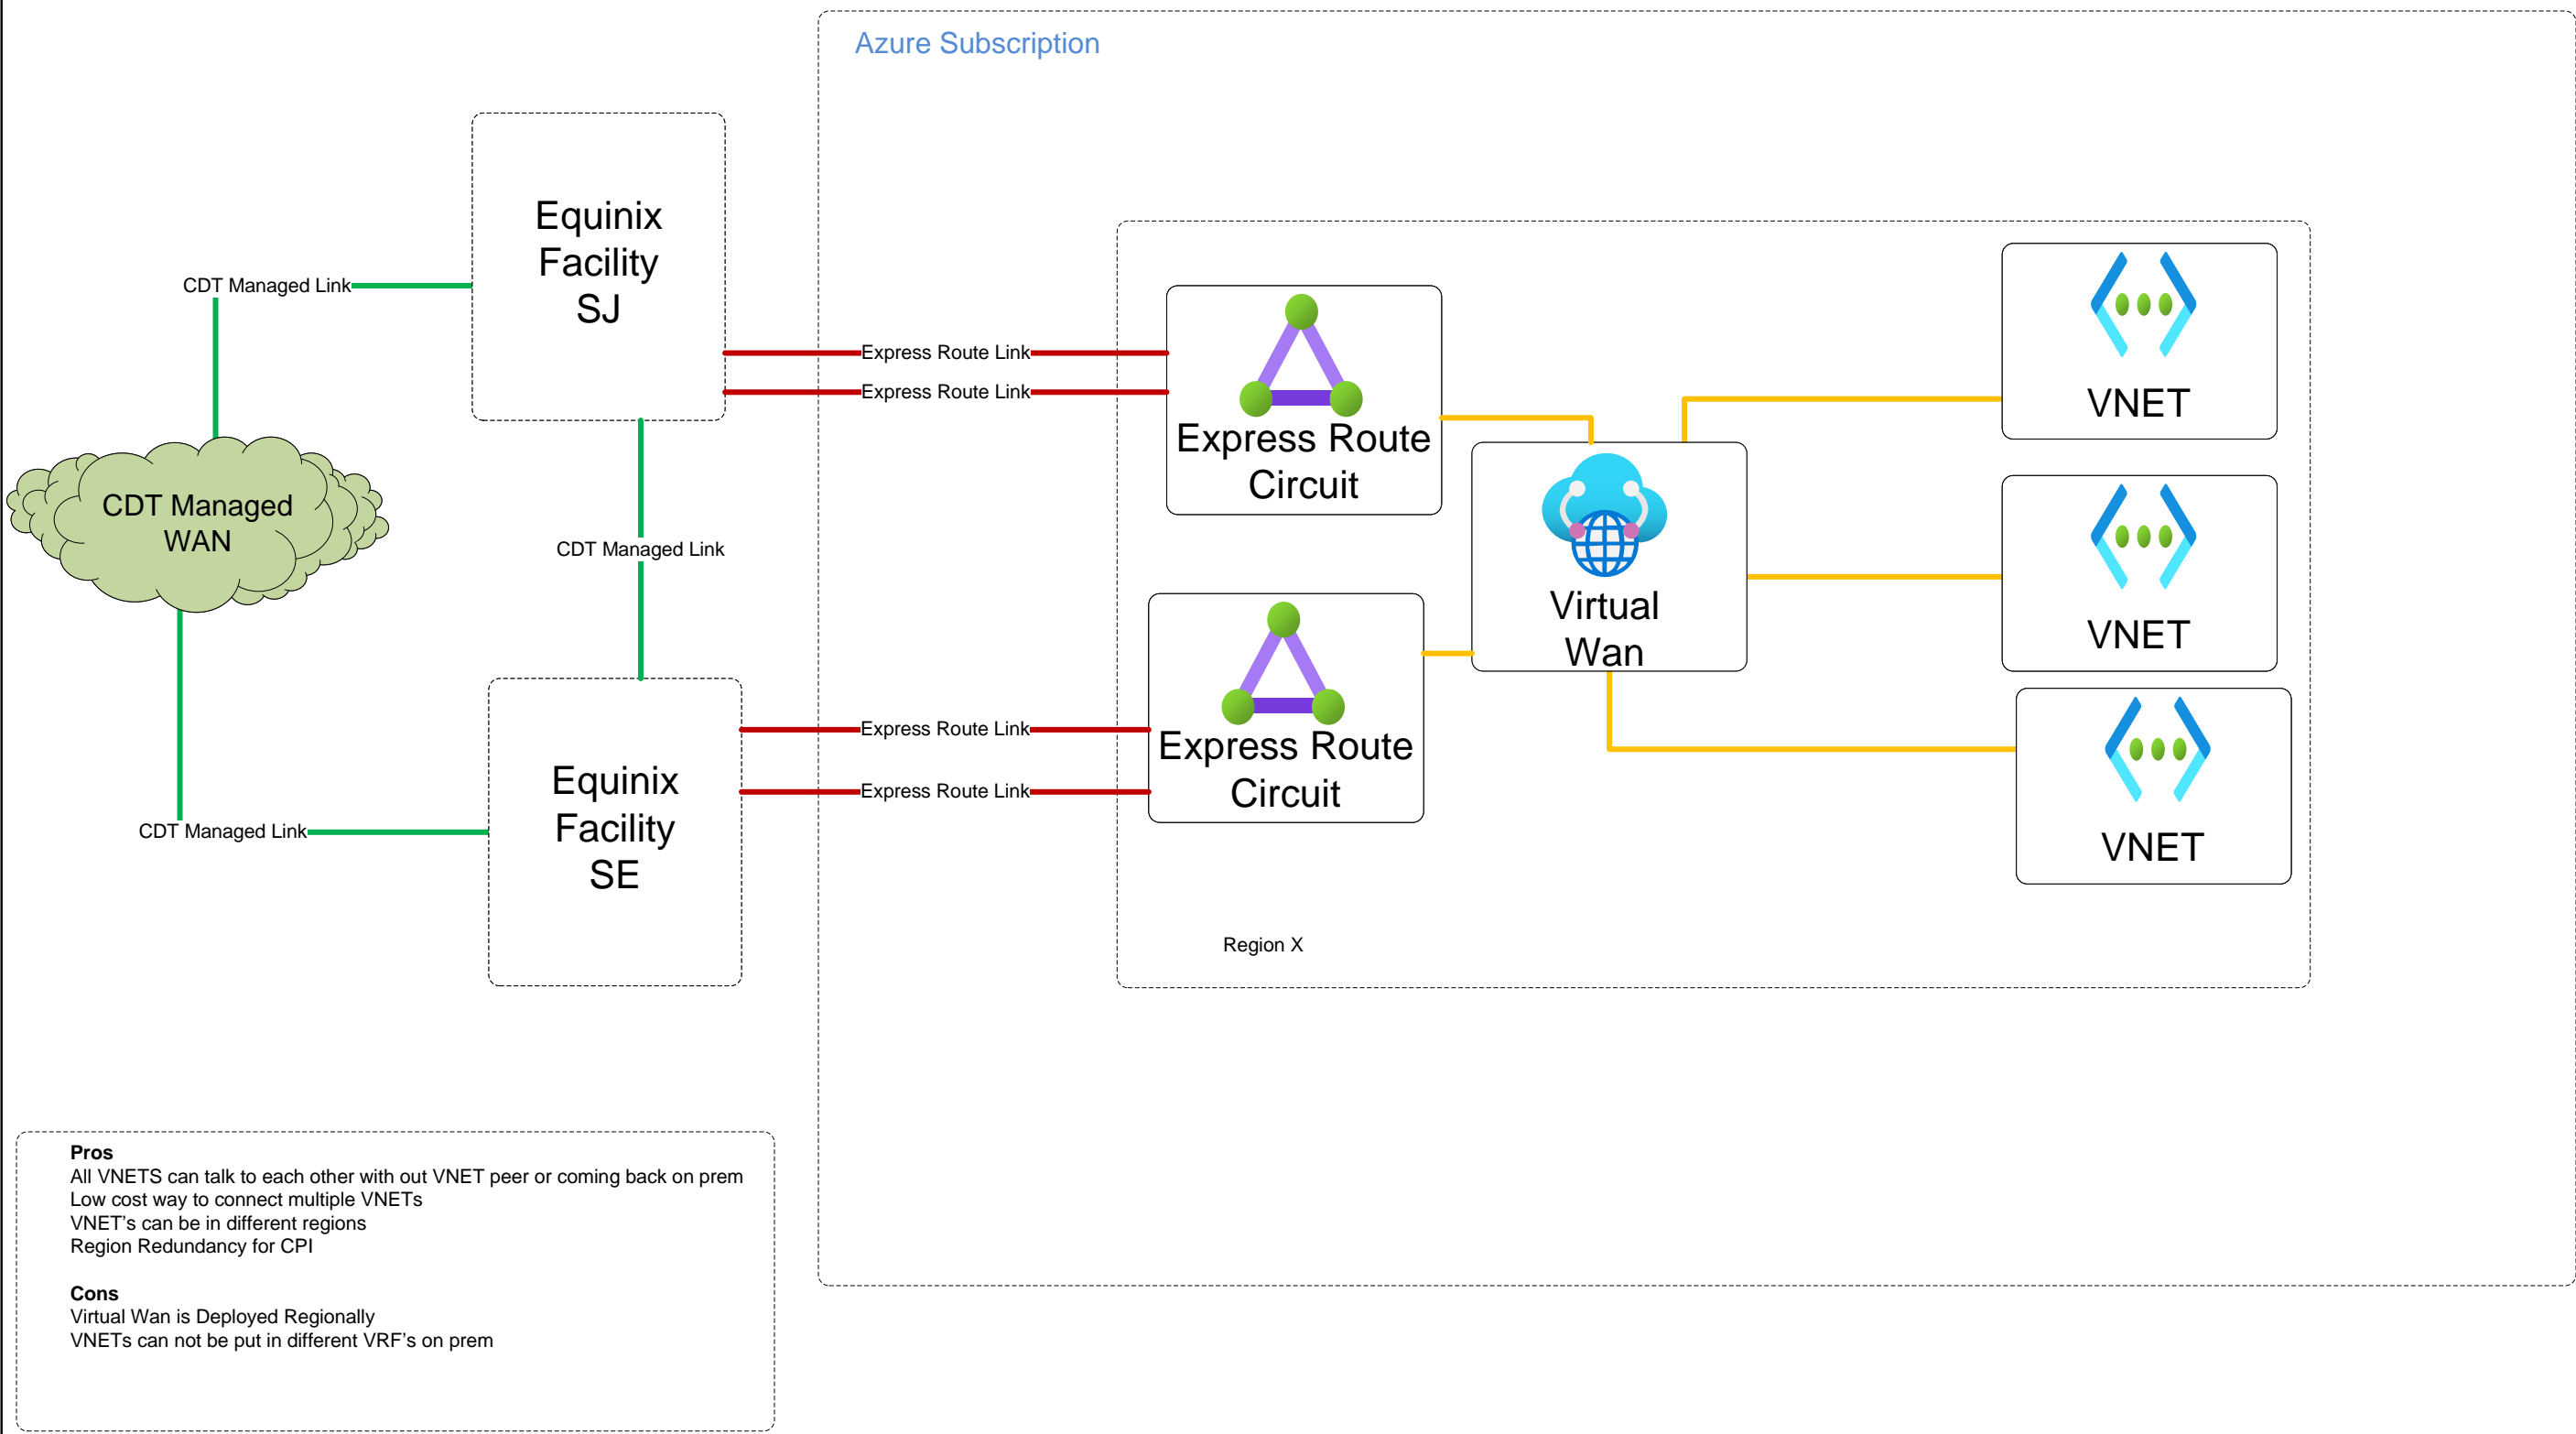

**Cons**  
VNETS's have to route on prem or have VNET peering to route to each other  
Maximum number of VNETS ranges from 10 to 100 depending on circuit size  
VNETs can not be put in different VRF's on prem
